

## Mukuru Promotion Centre Secondary School Sponsorship Programme 2012

**Y**our 2012 Secondary School Sponsorship program had another very good year. I want to thank you all personally as well as from Mukuru Promotion Centre and mostly from the students that have benefited immensely from your continued generosity.

We continued to expand the program this year and now total 186 students sponsored into secondary school. We were fortunate this year to add Airtel as one of our sponsors. They are sponsoring 10 students. You, as a group, continue to be the largest sponsors catering for 62 children.

As I mentioned in my report last year, this year I wanted us to assist at least one of the graduating class from last year into tertiary education. Secondary school graduation is a significant leap up versus just having primary school education. But to improve your chances of employment by another huge factor a university or college degree is

a must.

This year, with your help, we are assisting two young ladies to further their education.

**Dorthy Moraa**

Dorthy is the eldest in a family of four

children. Her mother stays home looking after her younger siblings and her father is a watchman. Dorthy achieved B- in her Kenya Certificate of Secondary Education. (KCSE) Unfortunately the only students that will be admitted into the public universities must have at least a B average (the actual point total is adjusted each year depending on the overall exam performance), Dorthy fell slightly short. Public universities while costing about the same come with some significant subsidies for students from poor families.

**Dorcas Mogeke**

Dorthy's father was able to save enough to pay for her tuition for the first year but did not have sufficient funds to cater for things like Lab fees, books, etc. We are providing that assistance

Dorthy wants to be a science teacher and has enrolled in a Science in Secondary Education at Kenyatta University.

Dorcas is the fourth child of eight. Her mother runs a small green grocery in one of the villages in the slum and her father is a casual worker. She has three older sibling who are also unemployed.

Dorcas aspires to be a doctor but with a B- in the KCSE she did not have the grades to make it into medical school. But Dorcas is ambitious and applied for and was accepted into Kisii University College for a Diploma in Clinical Medicine and Surgery.

I continue to monitor the donations and expenditures for our Secondary School Sponsorship program. The only group missing is Kenya Pipeline because we do a separate accounting for them.

Below please find the financial report.

	<b>Name</b>	<b>School</b>	<b>Class</b>	<b>Term 1</b>	<b>Term 2</b>	<b>Term 3</b>	<b>Total</b>
1	Andrew Kimeu	Gathiru-ini Sec Sch	4	22,050	13,700	10,100	45,850

2011	1835
2012	<u>2356</u>

Total 6974

Unfortunately again this year we had one student that dropped out of high school. Still with over 180 in school our success rate is still very good.

I also had a chance to meet a number of our sponsored students as well as the two ladies going to College/ University and they all thanked you for your on-going generosity.

I would request that you continue your

support for these students. For those of you in Canada/USA you can deposit your donation into my bank account and I will convert the money into Kenyan Shillings and give it Mukuru Promotion Center. I will be sending you an e-mail in the next week again soliciting funds for this cause.

If you have any questions please feel free to ask me or direct them to Sister Sally (Programme Manager at MPC) at prog.manager@mukuruex

**Form 4 Students in the KCSE Chemistry Practical Exam**

# Thank you
